6. Enrollment Data: Degree-applicable Enrollment (Credit Courses Only)

6b. Please list any individual degree applicable credit program which has experienced an increase (or decrease) of 50% or more in the last year.

The Computer Network Eng. & Electrical (CNEE) program experienced a 79% decrease, due to merging with the CIS and COMP departments, all of which are now under the new Computer Information Technology (CIT) department.

The 64% increased enrollments in the Business Administration program are a direct result of flexible course offerings, including compressed schedules, staggered start dates, and mixed modalities: face-to-face, hybrid, and online. Also, introductory courses in each discipline are offered at many different times and are taught by a variety of qualified faculty in the division to maximize learning opportunities for students. Finally, proactively informing students which courses they need to complete a certificate has motivated many students to enroll in those courses and achieve their goals.
